Final fixing date	04.10.2027
Redemption date	11.10.2027
Listing	SIX Swiss Exchange

Redemption

100% of the denomination is repaid on the redemption date if no barrier event has occurred during the observation period, or if all underlyings close at or above their strike level on the final fixing date. If a barrier event has occurred and at least one underlying closes below its strike level on the final fixing date, redemption is by physical delivery of the worst-performing underlying, at the applicable conversion ratio, in lieu of cash.
